

Burn Down Chart

This chart tracks the progress of work over 43 days. The Y-axis represents the amount of work remaining, ranging from 0 to 200. The X-axis represents the days from 0 to 43. The blue line represents 'Actual work' and the red line represents 'Planned work'. Both lines start at approximately 175 units of work. The actual work line generally stays above the planned work line until day 28, where it drops sharply, indicating a significant increase in work completion rate.

Day	Actual work	Planned work
